

ARDENT ADVISORY LLC

Website Technical Specification — Anonymous Phase

Version 2.0 | July 2026 | For Figma / Development Handoff

CLIENT	Ardent Advisory LLC
DOMAIN	ardentadvisory.co (primary)
AUDIENCE	Facility owners, operators, municipal agencies, investors, sports franchise ownership, public assembly authorities
BRAND	Independent, owner-side advisory. No design contract, no management agreement, no operator conflict.
DESIGN	Navy (#00245D), Red (#CE0E2C), Blue (#038DCE). Arial primary. Clean, institutional. Venue photography only — no stock.
ANONYMOUS PHASE	CRITICAL: No individual is named or identifiable anywhere on the site. No employer names. No specific stats that function as a fingerprint. No awards, NSSE event lists, or career timeline. Content is firm capability positioning only. Individual identity added post-employment-transition.

Design System Tokens

TOKEN	VALUE	USAGE
--color-navy	#00245D	Primary brand, headings, nav background on scroll, stat bar background, footer
--color-red	#CE0E2C	Accent underlines, active nav states, divider rules, CTAs on dark backgrounds
--color-blue	#038DCE	Subheadings, secondary CTAs, service page accents, link hover states
--color-black	#000000	Body text
--color-gray-dark	#5F6061	Secondary text, captions, table notes
--color-gray-mid	#888888	Tertiary text, footer secondary, disabled states
--color-gray-light	#C6C6C6	Borders, dividers
--color-off-white	#F2F2F2	Alternating table rows, section backgrounds
--color-white	FFFFFF	Page background, card backgrounds
--color-blue-tint	#EBF3FA	Callout backgrounds, independence statement
--font-primary	Arial, system-ui, sans-serif	All text. No web fonts loaded.
--font-mono	Courier New, monospace	Code snippets if needed (unlikely in production)
--radius-sm	4px	Buttons, tags
--radius-md	8px	Cards, form inputs

--shadow-sm	0 1px 3px rgba(0,0,0,0.08)	Cards, elevated elements
--max-width-content	720px	Body text max-width for readability
--max-width-page	1200px	Page container max-width

1. SITEMAP

Six public pages plus one utility page. Flat hierarchy — no nested navigation. Every page reachable from global nav in one click.

#	PAGE	URL	PURPOSE
1	Home	/	Hero, generalized stat bar, practice area cards, independence statement, CTA
2	About	/about	Firm capability narrative — no individual biography. Why Ardent exists, what the firm brings, approach, independence commitment.
3	Services: Asset Mgmt	/services/asset-management	Practice Area 1 — commercial RE, capital advisory, operational excellence
4	Services: Venue Advisory	/services/venue-advisory	Practice Area 2 — programming, design review, pre-opening, operations advisory
5	Services: Facility Assessment	/services/facility-assessment	Practice Area 3 — FCA, LTCNA, strategic capital planning
6	Contact	/contact	Form + email + phone. No office address during anonymous phase.
7	Privacy Policy	/privacy	Legal requirement for form data collection. Static.

/services is not a standalone page — redirects to /services/asset-management. Nav dropdown shows all three practice areas.

2. USER FLOWS

Flow 1 — Municipal Facilities Director (FCA Buyer)

Found Ardent via Google search or colleague referral. Evaluating whether to include Ardent in an RFP shortlist. Needs to confirm scope, credibility, and independence — quickly.

	ACTION	PAGE / COMPONENT
1	Lands on Home via search — scans hero headline and stat bar	Home — Hero + GeneralizedStatBar (Decades, Dozens, Billions, Hundreds)
2	Clicks Facility Assessment card or nav link	Services: Facility Assessment

3	Reads FCA and LTCNA service descriptions, confirms scope matches RFP	ServiceBlock components — FCA, LTCNA, Strategic Capital Planning
4	Scrolls to client types — sees Municipal governments in first position	ClientTypeGrid — filtered for this practice area
5	Clicks About to evaluate firm qualifications	About — firm capability narrative, approach, independence commitment
6	Confirms credibility from generalized experience language — decades, major venues, multiple facility types	About — no fingerprint data, no individual traceable
7	Clicks Contact, submits inquiry form	Contact — form with service interest dropdown
8	Receives auto-reply confirmation within 60 seconds	Email automation (Formspree)

Target: landing to form submission in under 4 minutes. Critical path: Home > Facility Assessment > About > Contact.

Flow 2 — Sports Franchise COO (Referral Validation)

Received a personal referral or direct text from the principal. Visiting the site to confirm credibility before taking a call. Already knows who is behind the firm — the site just needs to not contradict that.

	ACTION	PAGE / COMPONENT
1	Clicks link from text or email — lands on Home	Home — Hero + stat bar
2	Clicks Venue & Facility Advisory	Services: Venue Advisory
3	Scans programming, design review, pre-opening, operations advisory	ServiceBlock components
4	Notes NSSE reference (generalized) — 'events requiring federal coordination'	Generalized language in operations section — no specific events listed
5	Glances at About — confirms serious, institutional, independent positioning	About — firm capability narrative
6	Returns to text thread and replies to schedule call	Exit — converts via personal relationship, not form

Target: under 2 minutes on site. This user is confirming a referral, not discovering the firm. Site must not create doubt.

Flow 3 — Institutional Investor / PE (Asset Management Buyer)

Evaluating a venue or commercial RE acquisition. Needs operational due diligence and asset management advisory. Searching for an independent firm with asset-level depth.

	ACTION	PAGE / COMPONENT
1	Lands on Home via LinkedIn or referral	Home — Hero + stat bar

2	Clicks Asset & Property Management	Services: Asset Management
3	Reads Commercial RE and Capital & Investment Advisory sections	ServiceBlock — confirms institutional property mgmt and PE transaction experience (generalized)
4	Scans Operational Excellence section — multi-site portfolio capability	ServiceBlock — large networks, best practices, vendor management
5	Clicks About — reads firm capability, confirms institutional credibility	About — no employer names, no traceable stats
6	Submits Contact form or calls directly	Contact — phone visible on all pages

Target: under 3 minutes. Institutional investor needs to confirm institutional-grade credibility within 2 scrolls.

3. DATA MODELS

Static marketing site in v1. No database. No CMS. All content hardcoded. Data models defined for future CMS migration (Sanity, Contentful, or Strapi).

PracticeArea

```
id: string (slug)
title: string
subtitle: string
introText: richText
services: Service[]
clientTypes: ClientType[]
order: number
```

Service

```
id: string
title: string
description: richText
bulletPoints: string[]
practiceArea: PracticeArea (ref)
order: number
```

GeneralizedStat

```
value: string ('Decades', 'Dozens', 'Billions', 'Hundreds')
label: string ('of Facility Leadership')
order: number
// POST-TRANSITION: value changes to specific numbers ('30+', '75+', '$12B+', '325+')
```

ClientType

```
name: string
sector: 'asset_owners' | 'public_sector' | 'sports_entertainment'
order: number
```

ContactSubmission

```
name: string
organization: string
email: string
phone: string (optional)
serviceInterest: PracticeArea.id (dropdown)
message: text
submittedAt: datetime
```

4. API REQUIREMENTS

Minimal surface. Static site with one external integration.

SERVICE	PURPOSE	IMPLEMENTATION
Contact form	Capture inquiry, send notification email to principal	Formspree.io — form POST to external endpoint. Auto-reply. Free tier: 50/month.
Google Analytics 4	Page views, session duration, form events, traffic source	GA4 via GTM. Events: page_view, form_submit, cta_click, service_page_view.
Google Search Console	SEO indexing, search performance, sitemap	DNS TXT verification. Submit sitemap.xml. Monitor indexing.
Schema.org JSON-LD	Structured data for rich search results	ProfessionalService schema in <head>. Service areas, geographic coverage, contact.

No auth. No user accounts. No CMS API in v1. Future CMS: Sanity.io with Next.js ISR.

5. COMPONENT INVENTORY

33 components organized by atomic design. All use CSS custom properties from the design tokens above.

Atoms (13)

#	COMPONENT	TYPE	SPEC
1	Logo	SVG	Ardent Advisory wordmark. Navy on light, white on dark. SVG for crisp rendering at all sizes. Min-width: 120px.
2	NavLink	Interactive	Arial 14px. Underline on hover. Active: red (#CE0E2C) underline 2px. Transition: 200ms ease.

3	ButtonPrimary	Interactive	Navy bg, white text, 12px radius, padding 12px 24px. Hover: darken 10%. Focus: 2px blue outline offset 2px.
4	ButtonSecondary	Interactive	Transparent bg, navy border 1px, navy text. Hover: fill navy, text white. Same dimensions as Primary.
5	StatValue	Display	Value: 48px bold white. Label: 14px regular light-gray. Stacked vertically, center-aligned.
6	SectionHeading	Typography	All-caps, navy, Arial bold 24px, red underline bar 4px, padding-bottom 12px.
7	SubHeading	Typography	Arial Rounded MT Bold 18px, blue (#038DCE). No underline.
8	BodyText	Typography	Arial 16px/1.625 line-height, #000. Max-width: var(--max-width-content) 720px.
9	BulletItem	Typography	Bullet + text. Left indent 20px. Same font as BodyText.
10	Divider	Decorative	Navy 4px + Red 2px double-line. Full-width. Spacing: 24px top/bottom.
11	Tag	Display	Small pill. 12px font, navy bg/white text or blue bg/white text. 4px radius. Padding 4px 12px.
12	Icon	SVG	Lucide icon set. 24px. Stroke-width: 1.5. Color inherits from parent.
13	PhoneLink	Interactive	tel: link. Click-to-call on mobile. Visible in header and footer. 14px.

Molecules (10)

#	COMPONENT	SPEC
14	GeneralizedStatBar	Row of 4 StatValue atoms. Navy bg. Values: Decades Dozens Billions Hundreds. Labels beneath each. Responsive: 4-col > 2x2 > stack. POST-TRANSITION: swap to specific numbers.
15	PracticeAreaCard	Card with icon (Lucide), title, one-sentence description, 'Learn More' link. 8px radius. Subtle shadow on hover. Three cards in a row desktop, stack mobile.
16	ServiceBlock	SubHeading + BodyText paragraph + BulletItem list. No card wrapper — clean prose layout. Consistent spacing between blocks.
17	ContactForm	5 fields: name (text), organization (text), email (email), phone (tel, optional), service interest (select dropdown: 3 practice areas + Other), message (textarea). Submit: ButtonPrimary. Success/error inline state.
18	NavDropdown	Desktop: hover dropdown with 3 practice area links under Services. Mobile: accordion expand. 200ms open transition.
19	IndependenceCallout	Left navy border 4px + blue-tint bg (#EBF3FA). Bold headline + body text. Padding: 24px 32px. No card shadow.
20	ThreeColumnGrid	Three equal columns with navy header bar and bullet content. Used for operations disciplines and client type grids. Responsive: 3-col > stack.
21	CTABanner	Full-width navy bg. Headline + ButtonPrimary (white text on navy, hover: lighter). Padding: 48px. Centered text.
22	ClientTypeGrid	ThreeColumnGrid variant: Asset Owners Public Sector Sports & Entertainment. Bullet lists under each.
23	AnonymousBioBlock	Prose paragraphs — firm capability narrative. No photo, no name, no stat bar. Uses BodyText atoms. Clean, minimal. POST-TRANSITION: adds photo, name, specific stat bars.

Organisms (7)

#	COMPONENT	SPEC
24	GlobalNav	Fixed top. Logo left, nav right: Home, About, Services [dropdown], Contact. PhoneLink visible desktop. Hamburger mobile. Navy bg on scroll (transparent at top). Z-index: 1000.
25	HeroSection	Full-width. Navy bg or venue photo with navy overlay (60% opacity). Headline: 'Independent Advisory for Facility Owners.' Subtitle: 'Asset Management. Venue Advisory. Facility Assessment.' Two CTAs: Primary (Explore Services) + Secondary (Contact Us). GeneralizedStatBar immediately below, flush.
26	PracticeAreaOverview	SectionHeading + three PracticeAreaCards in a row. Home page only. Max-width: var(--max-width-page). Section padding: 80px vertical.
27	ServicePageLayout	SectionHeading + intro paragraph + repeating ServiceBlocks. ThreeColumnGrid where applicable. ClientTypeGrid at bottom. CTA to Contact. Consistent section padding.
28	AboutPageLayout	SectionHeading ('About Ardent Advisory') + AnonymousBioBlock (4 prose sections: Why We Exist, What We Bring, Our Approach, Independence). ClientTypeGrid. CTA. No stat bar, no career table, no NSSE table during anonymous phase.
29	ContactLayout	Two columns desktop: ContactForm left, contact info right (email, phone, Tampa FL, 'National & International Practice'). No map, no street address during anonymous phase. Single column mobile.
30	GlobalFooter	Navy bg. Three columns: Logo + tagline Quick links (5) Contact info. Copyright 2026. LinkedIn icon (links to company page, not personal). Padding: 48px vertical.

Templates (3)

#	TEMPLATE	STRUCTURE
31	HomeTemplate	GlobalNav > HeroSection (with GeneralizedStatBar) > PracticeAreaOverview > IndependenceCallout > ClientTypeGrid > CTABanner > GlobalFooter
32	ServiceTemplate	GlobalNav > SectionHeading > intro > ServiceBlocks (repeating) > ThreeColumnGrid (if applicable) > ClientTypeGrid > CTABanner > GlobalFooter
33	ContentTemplate	GlobalNav > SectionHeading > flexible content area (About, Contact, Privacy) > GlobalFooter

6. PAGE TEMPLATES — WIREFRAME DESCRIPTIONS

Home

- **HERO** — Full-width navy bg or venue photo with overlay. Headline: 'Independent Advisory for Facility Owners.' Subtitle. Two CTAs.
- **STAT BAR** — Four generalized stats flush below hero. Navy bg, white text. 'Decades of Facility Leadership | Dozens of Major Venue Projects | Billions in Construction Value | Hundreds of Venues Supported.' No specific numbers.
- **PRACTICE AREA CARDS** — Three equal cards. Icon + title + one sentence + link. Asset Management | Venue Advisory | Facility Assessment.
- **INDEPENDENCE CALLOUT** — Full-width. 'No design contract. No management agreement. No operator relationship to protect.'
- **CLIENT TYPES** — Three-column grid. Asset Owners | Public Sector | Sports & Entertainment.
- **CTA BANNER** — Navy bg. 'Ready to talk?' + Contact button.

- FOOTER — Three columns. Logo | Links | Contact info.

About

- HEADING — 'About Ardent Advisory' — not 'About Our Team' or 'About Our Principal'
- WHY WE EXIST — Two paragraphs. The independence gap in the market. Why Ardent was founded.
- WHAT WE BRING — Generalized experience language. 'Decades... major stadiums, arenas, convention centers... Class A commercial properties... multi-site portfolios... international scope... National Special Security Events.' No employer names. No specific numbers. No traceable stats.
- OUR APPROACH — What the owner needs to know. Honest FCA. Programming based on market reality. Operations advisory that reflects actual requirements.
- INDEPENDENCE COMMITMENT — Same callout as Home. 'No design contract. No management agreement.'
- CLIENT TYPES — Three-column grid.
- CTA — 'Ready to talk?' + Contact button.
- NO STAT BAR on About page. NO career highlights table. NO NSSE table. NO photo. All added post-transition.

Service Pages (x3)

- HEADING — Practice area name
- INTRO — One paragraph framing the practice area for target audience
- SERVICE BLOCKS — Repeating: SubHeading + paragraph + bullets. 2-4 per page.
- THREE-COLUMN GRID — Venue Advisory page: operations disciplines table. No NSSE table during anonymous phase.
- CLIENT TYPES — Filtered to relevant client types
- CTA — Contact button
- Note: Service pages can include generalized experience language ('decades of experience across major venue networks') but NO employer names, specific project counts, or traceable statistics.

Contact

- TWO-COLUMN — Form left, contact info right. Single column mobile.
- FORM — Name, Organization, Email, Phone (optional), Service Interest (dropdown), Message.
- SUBMIT — Primary button. Success state replaces form with confirmation.
- CONTACT INFO — Email, phone (click-to-call), Tampa FL, National & International Practice.
- NO street address. NO map. Added post-transition if office is established.

7. TECHNICAL STACK

LAYER	TECHNOLOGY	RATIONALE
-------	------------	-----------

Framework	Next.js 14+ (App Router, SSG)	Static generation. Zero client JS for content pages. Future-proof for CMS via ISR.
Hosting	Vercel (Edge Network)	Native Next.js. Automatic HTTPS. Preview deploys. Free tier sufficient.
Styling	Tailwind CSS	Utility-first. Design tokens map directly to Tailwind config.
Typography	Arial / system-ui stack	No web font loading. Instant text rendering. Matches brand docs.
Forms	Formspree.io	No backend. Free 50/month. Auto-reply. \$10/month for 1,000.
Analytics	GA4 via GTM	Event tracking. Single container. Standard.
SEO	Next.js metadata API	Per-page meta. OG tags. JSON-LD. Auto sitemap.
Images	next/image + WebP	Auto optimization, lazy loading, responsive. JPEG fallback.
DNS	Cloudflare	Free. DDoS. SSL. Fast propagation.
Email	Google Workspace	contact@ardentadvisory.co. \$6/month.
Source	GitHub (private)	Vercel auto-deploys from main branch.
Monitoring	Vercel Analytics	Core Web Vitals built-in.

Squarespace Alternative

If building on Squarespace rather than Next.js: Business plan \$33/month. Built-in forms, analytics, SSL. SEO via native fields + code injection for JSON-LD. No SSG, no edge deployment. Lighthouse ~75 vs 95+. Acceptable if speed-to-launch is priority.

8. PERFORMANCE BUDGETS

METRIC	NEXT.JS / VERCEL	SQUARESPACE
Lighthouse Performance	95+	75+
First Contentful Paint	< 1.0s	< 2.0s
Largest Contentful Paint	< 1.5s	< 3.0s
Cumulative Layout Shift	< 0.05	< 0.10
Time to Interactive	< 1.5s	< 3.5s
Total Blocking Time	< 100ms	< 300ms
Page weight (total)	< 500KB	< 2MB
JS bundle	< 50KB	Not controllable
Images	WebP, < 100KB hero	Auto-optimized

TTFB	< 100ms (edge)	< 500ms
------	----------------	---------

Max 3 images per page. Hero: 1200x600 max, WebP, < 100KB. No video. No carousels. No animation beyond subtle hover transitions (200ms ease).

9. SEO STRUCTURE

Technical SEO Checklist

- Canonical URLs: self-referencing on every page
- Open Graph: og:title, og:description, og:image, og:url, og:type per page
- Twitter card: summary_large_image per page
- sitemap.xml: auto-generated, submitted to Search Console
- robots.txt: allow all public pages

- Trailing slashes: none (Next.js default)
- 301: www to non-www (enforce one canonical domain)
- HTTPS: enforced all pages (Vercel/Cloudflare)
- Alt text: all images, descriptive, keyword-aware
- Heading hierarchy: one H1 per page, H2 sections, H3 sub-sections
- Internal linking: every service page links to Contact and About
- Lighthouse: 95+ target every page
- Responsive: test 375px, 768px, 1024px, 1440px

APPENDIX: POST-TRANSITION CONTENT SWAP

When the principal is publicly identified, the following changes are deployed as a single content update. No structural changes to the site required.

ELEMENT	WHAT CHANGES
GeneralizedStatBar values	Decades > 30+ Dozens > 75+ Billions > \$12B+ Hundreds > 325+
About page: AnonymousBioBlock	Replaced with full biography naming individual, employers, specific stats, awards
About page: add StatBar (2 rows)	Row 1: 30+ 75+ \$12B+ 325+ Row 2: 1.2M \$500M+ 27+ 5 Super Bowls
About page: add Career Highlights table	10-row achievement/impact table from profile document
About page: add NSSE table	Three-column: Super Bowls, Political Conventions, International Summits with specific events
About page: add Recognition callout	JLL Award 2005, Venues Today 2014, FBI Certificate, PE transactions
About page: add photo	Professional headshot of principal
Service pages: add specific experience language	Specific project counts, construction values, employer names where relevant
GlobalFooter: add LinkedIn	Link to personal LinkedIn profile (not company page)
Contact: add office address if applicable	Physical address and map embed if office established
SEO: update About meta description	Include principal name and specific credentials
Schema: add Person schema	JSON-LD Person schema with principal name, credentials, sameAs LinkedIn
